Causeway Emerging Markets UCITS Fund, a sub-fund of Causeway Funds plc, EUR Class (ISIN: IE00BWT3P209)

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The investment objective of the Fund is to seek long-term growth of capital in emerging markets.

Investment Strategy

The Fund normally invests at least 80% of its total assets in equity securities of companies in emerging markets and other investments that are tied economically to emerging markets, such as common stock, preferred and preference stock, depositary receipts, real estate investment trusts and exchange-traded funds (“ETFs”) that invest in emerging markets securities.

The Investment Manager uses a quantitative investment approach to purchase and sell investments for the Fund. The Investment Manager’s quantitative investment approach uses a proprietary computer model that analyses financial data or “factors” to find predictable patterns from historical data to assist in selecting investments. The model currently analyses factors relating to valuation, earnings growth, technical indicators (such as stock price momentum), macroeconomics, currency, countries and economic sectors, ranking companies within each factor and combining these rankings to select investments. In addition to its quantitative research, the Investment Manager’s fundamental research analysts review the quantitative outputs to attempt to identify and address special issues, such as significant corporate actions or

management changes, which are difficult to detect quantitatively.

The Fund invests in companies in ten or more emerging markets. If the Fund invests in a country, the percentage of the Fund’s total assets attributable to that country is not expected to be greater than the weight of that country as represented in the MSCI Emerging Markets Index, plus 5 percentage points, or less than the weight of that country in the MSCI Emerging Markets Index minus 5 percentage points. At the discretion of the Investment Manager, the Fund may invest in the aggregate up to 10% of total assets in companies in frontier markets.

The Fund generally invests in companies with market capitalisations of US\$500 million or greater at the time of investment and may invest in a wide range of industries.

The Fund does not anticipate paying dividends in respect of the shares.

For more information about the Fund’s investment policy, see “**Investment Objectives, Policies and Restrictions**” in the Fund’s Prospectus and “**Investment Objective**” and “**Investment Strategy**” in the Fund’s Supplement, available at www.causewaycap.com/non-us-investors.

You may redeem your shares on any business day on which commercial banks are open in Dublin, London and Los Angeles by submitting your request to the administrator by 2.30 p.m. (Irish time).

RISK AND REWARD PROFILE

These numbers rate how the Fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a larger risk of losses. The lowest category does not mean a risk free investment.

The risk category shown is not guaranteed and may change over time.

This Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past.

Certain Other risks:

Market fluctuations and security selection risk. If the value of the Fund’s investments goes down, you may lose money. We cannot guarantee that the Fund will achieve its investment objective.

Foreign and emerging markets security risk. The value of the Fund’s securities may be affected by social, political and economic developments and laws relating to foreign investment, as well as foreign currency exchange rates.

The extent of economic development, political stability, market depth, infrastructure, capitalization and regulatory oversight in emerging markets can be less than in more developed foreign markets. Other risks include trading, settlement, custodial, and other operational risks; withholding or other taxes; and the less stringent investor protection and disclosure standards of some foreign markets. All of these factors can make emerging markets securities less liquid, more volatile and harder to value. These risks are enhanced for investments in smaller capitalization companies.

Quantitative risk. Data for emerging markets companies may be less available, less accurate and/or less current than data for developed markets companies. The Investment Manager’s quantitative processes and stock selection can be adversely affected if it relies on erroneous or outdated data. Any errors in the Investment Manager’s quantitative methods may adversely affect the Fund’s performance. In addition, securities selected using quantitative analysis can perform differently from the market as a whole.

See also the description of the risks applicable to the Fund in “**Investment Risks**” in the Fund’s Prospectus and “**Risks**” in the Fund’s Supplement.

CHARGES FOR THIS FUND

One-off charges taken before or after you invest

Charges taken from the fund over a year

Ongoing charge	1.25%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

Charges taken are used to pay the costs of running the Fund, including marketing and distributing expenses. These charges reduce the potential growth of your investment.

The entry and exit charges shown, if any, are at their maximum permitted level, and in some cases investors may pay less. Actual charges should be confirmed with your financial adviser or distributor.

The Investment Manager has currently undertaken to limit ongoing charges (excluding expenses for interest, taxes, brokerage fees and commissions, shareholder service fees, fees and expenses of other funds in which the Fund invests, and extraordinary expenses) of each share class to 1.25% of the Fund's average daily net asset value.

Ongoing charges are based on the last year's expenses for the period ending 31/12/2017, and this figure may vary from year to year.

For more information about charges, please see "**Fees and Expenses**" in the Fund's Prospectus and "**Management of the Fund, Fees and Expenses**" in the Fund's Supplement.
