Causeway Global Value UCITS Fund, a sub-fund of Causeway Funds plc, USD Accumulation Class (ISIN: IE00BWT3P530)

The Fund is managed by Carne Global Fund Managers (Ireland) Limited (the "Manager")

Objectives and Investment Policy

Investment Objective

The investment objective of the Fund is to seek long-term growth of capital and income.

Investment Strategy

The Fund is actively managed in reference to a benchmark. The Fund invests primarily in common and preferred stocks of United States and non-United States companies, including companies in emerging markets. Normally, the Fund invests the majority of its total assets in companies that pay dividends or otherwise seek to return capital to shareholders, such as by repurchasing their shares.

The Fund may invest up to 25% of its total assets in companies in emerging (less developed) markets. Under normal circumstances, the Fund will invest at least 40% of its total assets in companies in a number of developed countries outside the United States.

When investing the Fund's assets, the Investment Manager follows a value style, performing fundamental research supplemented by quantitative analysis. Beginning with a universe of companies throughout the developed and emerging markets, the Investment Manager uses quantitative market capitalisation and valuation screens to narrow the potential investment candidates to approximately 4,000 securities. To select investments, the Investment Manager then performs fundamental research, which generally includes company-specific research, company visits, and interviews of suppliers, customers, competitors, industry analysts, and experts.

The Investment Manager also applies a proprietary quantitative risk model to adjust return forecasts based on risk assessments. Using a value style means that the Investment Manager buys stocks that it believes have lower prices than their true worth. For example, stocks may be "undervalued" because the issuing companies are in industries that are currently out of favour with investors. However, even in those industries, certain companies may have high rates of growth of earnings and be financially sound.

The Fund uses the MSCI ACWI Index as a comparator benchmark to compare the performance of the Fund against, but which is not used to constrain the portfolio composition or as a target for the performance of the Fund.

The Fund may invest in companies of any market capitalisation, and is not required to invest a minimum amount and is not limited to investing a maximum amount in any particular country.

For accumulation share classes, dividends will not be paid and income attributable to these classes will be automatically reinvested in the Fund and reflected in the relevant classes' Net Asset Value per share.

For distributing share classes it is intended that an annual dividend of the net income of the Fund attributable to these classes will be paid.

For more information about the Fund's investment policy, see "Investment Objectives, Policies and Restrictions" in the Fund's Prospectus and "Investment Objective" and "Investment Strategy" in the Fund's Supplement, available at www.causewaycap.com/non-us-investors.

You may redeem your shares on any business day on which commercial banks are open in Dublin, London and Los Angeles by submitting your request to the administrator by 2.30 p.m. (Irish time).

Risk and Reward Profile

These numbers rate how the Fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a larger risk of losses. The lowest category does not mean a risk free investment.

The risk category shown is not guaranteed and may change over time.

This Fund is ranked at 5 because funds of this type have experienced medium to high rises and falls in value in the past.

Certain Other risks:

Market fluctuations and security selection risk. If the value of the Fund's investments goes down, you may lose money. Social, political, economic and other conditions and events will occur that have significant impacts on issuers, industries, governments and other systems, including the financial markets. In particular, in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of COVID-19, which may negatively impact the Fund. More generally, as global systems, economies and financial markets are increasingly interconnected, events that occur in one country, region or financial market will, more frequently, adversely impact issuers in other countries, regions or markets. We cannot guarantee that the Fund will achieve its investment objective.

Foreign security risk. The value of the Fund's securities may be affected by social, political and economic developments and laws relating to foreign investment, as well as foreign currency exchange rates. Other risks include trading, settlement, custodial, and other operational risks; withholding or other taxes; and the less stringent investor protection and disclosure standards of some foreign markets. All of these factors can make foreign securities less liquid, more volatile and harder to value. These risks are higher for emerging markets investments.

Value stock risk. Value stocks are subject to the risks that their intrinsic value may never be realized by the market and that their prices may go down. The Fund's value discipline sometimes prevents or limits investments in stocks that are in its performance comparison benchmark index.

Charges

One-off charges taken before or after you invest:	
Entry Charge	0.00%
Exit Charge	0.00%
This is the maximum amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year:	
Ongoing Charges	1.00%
Charges taken from the Fund under certain specific conditions:	
Performance fee	None

Charges taken are used to pay the costs of running the Fund, including marketing and distributing expenses. These charges reduce the potential growth of your investment.

The entry and exit charges shown, if any, are at their maximum permitted level, and in some cases investors may pay less. Actual charges should be confirmed with your financial adviser or distributor.

The Investment Manager has currently undertaken to limit ongoing charges (excluding expenses for interest, taxes, brokerage fees and commissions, shareholder service fees, fees and expenses of other funds in which the Fund invests, and extraordinary expenses) of each share class to 1.00% of the Fund's average daily net asset value.

For more information about charges, please see **"Fees and Expenses"** in the Fund's Prospectus and **"Management of the Fund, Fees and Expenses"** in the Fund's Supplement.

Past Performance

This chart shows how much the Fund increased or decreased in value as a percentage in each full calendar year since its launch. Performance has been calculated in USD and takes account of entry, exit, and ongoing charges. The Fund was launched in 2015. The benchmarks referenced in the past performance graph are the MSCI ACWI Index (Gross) and the MSCI ACWI Value Index (Gross). The Fund is not tracking these indices, nor is it influenced or constrained in anyway by these indices.

Past performance is not a reliable guide to future performance.
