## Market commentary

Global equities declined again in the third quarter as many central banks reiterated their commitment to fighting inflation. The top performing markets in our investable universe were Turkey, Brazil, Indonesia, India, and Chile. The worst performing markets were Poland, China, Colombia, the Czech Republic, and Hong Kong. The best performing sectors in the MSCI ACWI Index ("Index") were energy, consumer discretionary, and financials. The worst performing sectors were communication services, real estate, and utilities.

The Causeway Global Value UCITS Fund ("Fund") underperformed the Index during the quarter, due primarily to stock selection. Fund holdings in the capital goods, technology hardware & equipment, retailing, and materials industry groups, along with an underweight position in the energy industry group, detracted from relative performance. Holdings in the banks, software & services, and media & entertainment industry groups, as well as an underweight position in the telecommunication services and semiconductors & semi equipment industry groups, offset some of the underperformance compared to the Index. The largest detractor was jet engine manufacturer, Rolls-Royce Holdings Plc (United Kingdom). Additional notable detractors included electric, gas & renewables power generation & distribution company, Enel SpA (Italy), rolling stock, signaling, & services provider for the rail industry, Alstom SA (France), life insurer, Prudential Plc (United Kingdom), and pharmaceutical giant, Sanofi (France). The top contributor to return was casino & resort company, Las Vegas Sands Corp. (United States). Other notable contributors included banking & financial services company, UniCredit S.p.A. (Italy), financial services technology company, Fiserv, Inc. (United States), business process outsourcing services provider, Genpact Ltd. (United States), and HVAC manufacturer, Carrier Global Corp. (United States).
